PLUS

An entirely new tool for meetings.

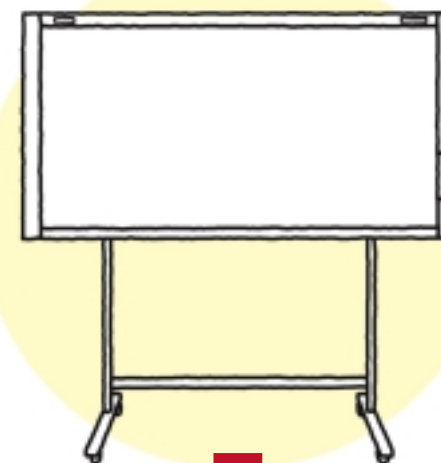

Captureboard

Now improve your meetings more than ever.

Project

Write

Save

Write directly on the screen including over the projected image and all of the written comments together on your computer.

The all-new PLUS Captureboard allows your meetings to be dynamic, creative and productive. Your meeting attendees can make points and provide more input by adding their comments to the writable screen. When the meeting is over, you can take it all with you by saving the contents to your computer. Forget about taking notes and focus on getting the best results.

Project

A unique writing surface allows for sharp projected images with minimal reflection and projector glare.

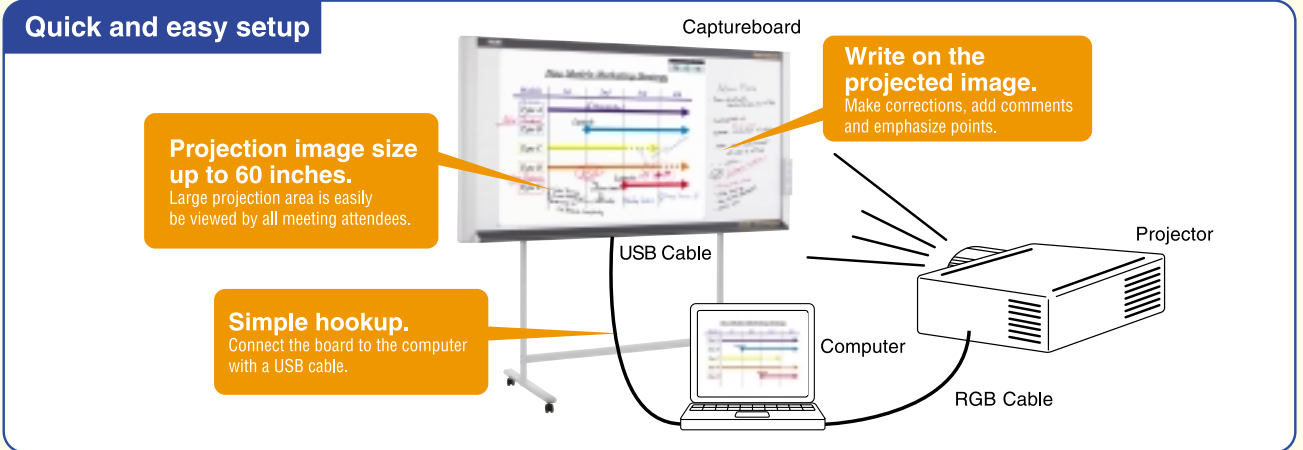

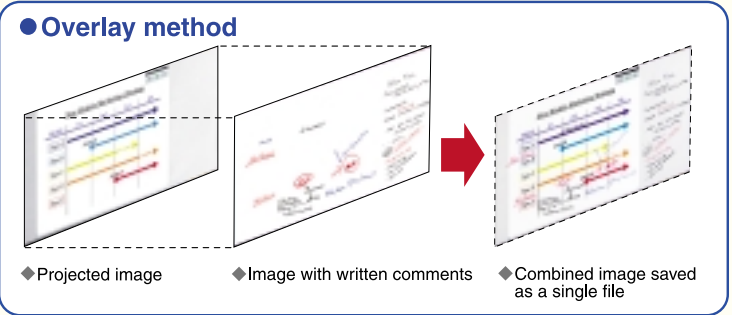

Use the supplied color markers to write directly both on the projected image and blank space.

* Using other markers or erasers may stain the screen.

Write

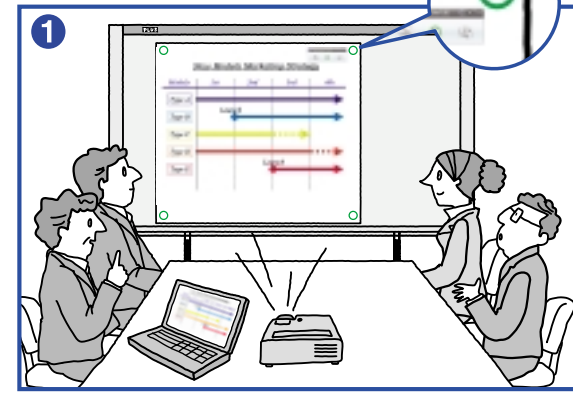

Save

Captureboard software allows you to combine and save the projected image with the hand-written notes into a single file on your computer.

User-friendly! Enhance the efficiency of your meetings.

Begin your meetings quickly with minimal set-up.

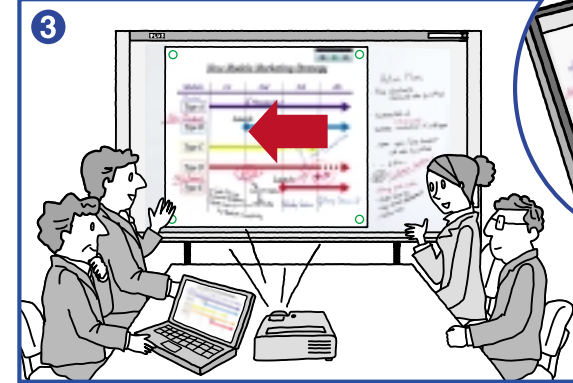

Start up Captureboard software to bring up the main menu at the top right of the projected image. Four small circles appear in the corners of the image. Trace each circle with one of the supplied markers.

Have a lively and dynamic discussion. Add comments to any part of the board.

To save the projected image and the hand-written comments to a single file, just click the "scan button" in the main menu.

All of the important comments and the projected image are combined and saved to your computer.

The screen slides sideways to scan the written comments and send them to your computer.

Modify presentation materials while viewing comments written during the meeting.

Captureboard software allows you to see the single image combined with the projected image and written comments.

Great for versatile applications!

- Modify catalogue or poster designs**
- Review product designs**
- Check presentation materials before a board meeting**
- Plan web site designs**
